please help with this math question? | Yahoo Answers

please help with this math question? A population of beetles are growing according to a linear growth model. The initial population (week 0) is $P_0=5$, and the population after 5 weeks is $P_5=455$. Find an explicit formula for the beetle population after n weeks. $P_n=5+ __ *n$. Answer Save.

McGraw-Hill

Color coding is often a great tool for this. Once students share how they see the growth in the pattern we then proceed to the numerical and algebraic questions. Having looked at the pattern growth visually opens up the ways of thinking about the pattern to answer the question about the 100th and the n th case. It also shows students how we all see math differently even in a question that has a single numerical answer.

Course: Grade 6 Module 1: Ratios and Unit Rates

After students state the answer, or as a hint, write the number of dots used below each L. Ask several students to state the rule they would use to add more figures to the pattern. Call on students to draw the next three L shapes in the pattern. Distribute the Growing Pattern Activity Sheet to students. Growing Patterns Activity Sheet
