this set (5) A correlation between variables can be detected by visual inspection of a: scatterplot. If persons with low scores on one variable also have low scores on another variable, the two variables are:

Psychsim 5 Answer Key Mystery Client

(From PsychSim 5) To calculate the standard deviation, first calculate the difference between each score and the mean (raw score minus mean score). Next, square each difference result. After the differences are squared, add them together. Finally, divide that sum by the number of scores and take the square root.
